

... In three months I have accepted nearly \$12,000.00 worth of credit card payments. Of this amount, \$9,000.00 was business that would have gone to another attorney had I not been able to accept credit cards. Not only have I received this additional business, but I also have the added credibility that comes with being a service provider that accepts credit cards as payment.

I encourage any service provider, whether in the legal field or otherwise, to contact [Francisco J. Acosta](#) to determine how he might be able to increase your income. Francisco is a customer-friendly, knowledgeable, and professional service provider whose sole interest is helping his clients improve their businesses by increasing the clients' income-generating potential.

Scott L. Fenstermaker, Esq.
